

## **WHAT ARE OUR MISSION, OUR GOAL AND OUR OBJECTIVES?**

The Christian Initiative against Alcoholism in Chad is committed to glorifying God by contributing to the emergence of a responsible society, conscious of the danger of alcoholism, able to renounce alcoholism and to concentrate on the development of our country.

The association's ultimate goal is to mobilize Churches in Chad to fight against alcoholism in order to limit its damaging effects on both the consumers themselves and the Chadian population.

To achieve this goal, the association aims to:

- To alert the Chadian population through the churches to a serious awareness of the danger posed by alcoholism.
- Help by a participatory method, those who are dependent on alcohol to gradually free themselves from the chains of alcoholism.
- Help those who do not consume alcohol to develop a positive and constructive attitude towards those who are slaves of alcohol in order to gradually bring them into positive change that will benefit the entire Chadian nation.
- Promote and encourage actions to combat alcoholism in Chad.
- Encourage activities to free alcoholics from alcohol dependence.
